By establishing an account or using the service or equipment, you agree to be bound by this Agreement and to use the service in compliance with PVT's terms and conditions, which can be found by going to www.pvbroadband.com or www.pvtelephone.com. This agreement applies to customers of PVT's Internet service. This agreement, and the service furnished hereunder cannot be sold, assigned, or sublet. PVT has accounts designed for commercial businesses and User agrees to apply for a business account if User intends to conduct business through PVT's Internet service.

The initial term of this agreement is as marked and listed below:

____ a monthly contract with billing monthly at \$54.00 per month and will renew automatically without notice.

Your activation date is three days after your account is provisioned OR on the first day you connect to your service, whichever is earlier. The agreement will continue on a month-to-month basis after the initial term. All charges are billed monthly. PVT reserves the right to change rates at any time, except as listed herein. Failure to pay when due will result in suspension or discontinuance of service. A service fee to reactivate may be required.

Customers may not resell Internet services including Internet access, bandwidth, web space, e-mail, or any other feature without the express written permission of PVT.

Broadband Internet Service

Installation

PVT will provide you with technical support to help set up your account, if necessary. If the relationship is terminated by either party (you or PVT) before the activation date, or if the line is found to be unprovisionable, you must return any and all equipment as the equipment you receive is not your property but will always remain PVT's property and upon termination of the agreement the property will be returned in the same condition. Failure to do so will result in a one-time equipment fee. If you choose to cancel the account after the activation date, you could be charged for the installation and/or setup charges. This fee is subject to change.

The installation, use, inspection, maintenance, repair, and removal of the Equipment may result in service outage or potential damage to your computer. You are solely responsible

for backing up all of your existing computer files and data. PVT and its employees, agents, contractors, and representatives shall have no liability whatsoever for any damage to or loss or destruction of any of your hardware, software, files, data, or peripherals. You assume responsibility for impacts to or loss of any warranty associated with the opening of your computer for installation of an internal card (such as a Network Interface Card).

You acknowledge that this is a fixed-location service for one personal computer only. Moving to another location will require the service to be reprovisioned at the new location. This may result in substantial interruption of the service and will result in fees associated with cancellation and setting up a new account. Early termination charges will apply even if the cancellation is for reasons of a move to another location.

PVT does not represent, warrant, or covenant that installation by you or a third party chosen by you will enable you to successfully access, operate or use the services, nor that such installation will not cause damage to your computer, data, software, files, or peripherals. In addition, PVT shall have no liability whatsoever for any damage, or for the failure to properly install, access, use, or operate that equipment or services because of your installation. The foregoing limitation of liability is in addition to and shall in no way be construed to limit any and all limitations of liability set forth elsewhere in this agreement.

PVT will make its best effort to provide the service at a speed of up to 4Mbps downstream. Because of the complex nature of broadband services, availability, and the underlying infrastructure, it may not be possible to provide the service to everyone or there could be possible times for interruption of service given the technical and distance issues involved with accessing the Internet at high speeds. PVT is not responsible for claims arising out of or due to PVT service being temporarily unavailable and therefore, not accessible by the customer, and said customer hereby waives any claim against PVT due to any temporary and/ or permanent outage or unavailability of said service with this waiver including but not limited to any of user's / customer's claims for loss of profit for business or personal or any other possible claim due to any disruption of service, no matter how long or permanent. In its sole discretion, PVT may cancel the installation process, or subsequently your service, and refund any money that you have prepaid. PVT will notify you of its intent to cancel as soon as reasonably possible. PVT shall have no responsibility whatsoever for claims arising out of its failure or refusal to complete the installation or provide the service.

Customers may NOT retransmit this broadband Internet service or make the service available to anyone outside the premises (i.e. wi-fi or other methods of networking).
